

CONTINUING YOUR STORY

Your Legacy of Achievement page

As an Inductee of the South Dakota Hall of Fame, you are encouraged to share more of the lifelong experiences that have formed your own Legacy of Achievement. Your story will be available to anyone, but will be particularly meaningful to your family, friends and business associates. These extra stories and media will also provide additional depth to your story for the schools, communities, organizations and media that use Inductee biographies.

- You will be provided a password-protected Legacy of Achievement page, designed to enable you to enter text, photos and media to expand the biography provided when you were inducted into the South Dakota Hall of Fame. Your new Legacy of Achievement page will start with your existing biography and portrait, but you will be able to add and edit information and media.
- Inductees may share the ID and Password to their page with their families and assistants who may help contribute text, photos, videos, and oral recordings.
- The Legacy of Achievement Directory will be available to all to view, but only you or those you've shared your ID/Password with may change your individual page.

How to start your Legacy of Achievement page

1. Visit **www.sdhalloffame.com**.
2. From the **Programs for Excellence** tab, select **Legacies of Achievement**.
3. Under the **Account** menu, select **Request account**.
4. Fill out and submit the form, which asks for a Username and Email. *Under Additional Notes, ask to have a Legacy page set up.* Be sure to do the simple math problem and to press the **Request account** button.
5. You will receive further instructions by email when your Legacy page is established.

For detailed instructions, please watch the video available at
